# CRUSHER FOR GLASS BOTTLES – BliK B 400 special “bottle breaker”

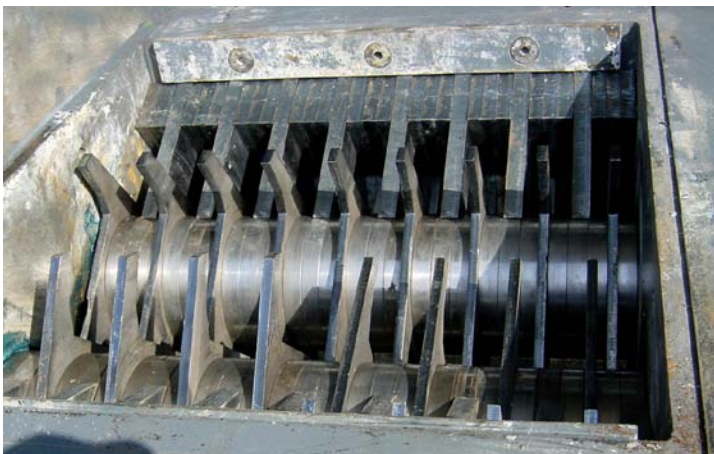

**Crusher B400-370**  
**Special glass cut**  
**Output:**  
**Around 1,500kg / hr or**  
**10,000 bottles**

**B**elow: on the left, glass bottles with all sorts of tops:  
**N**o preparation required  
**O**n the right, the result

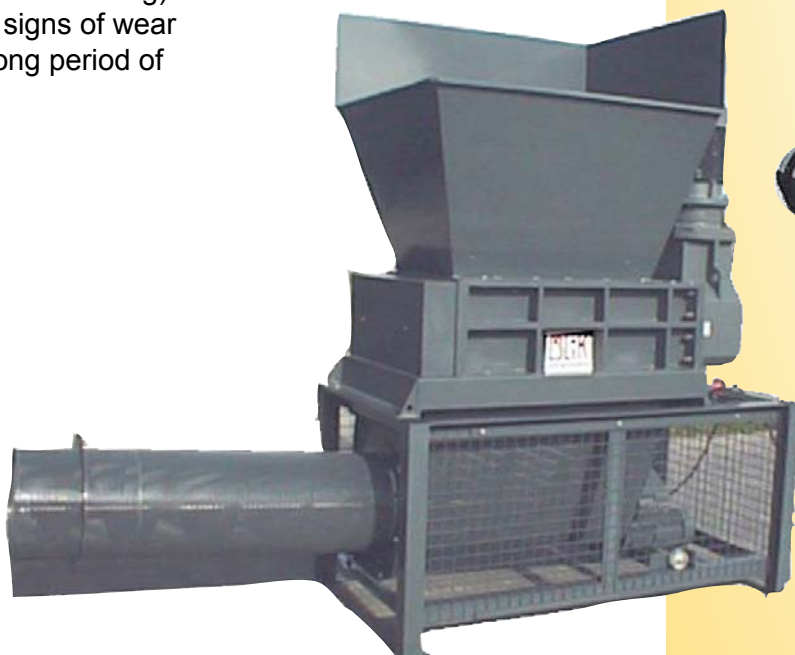

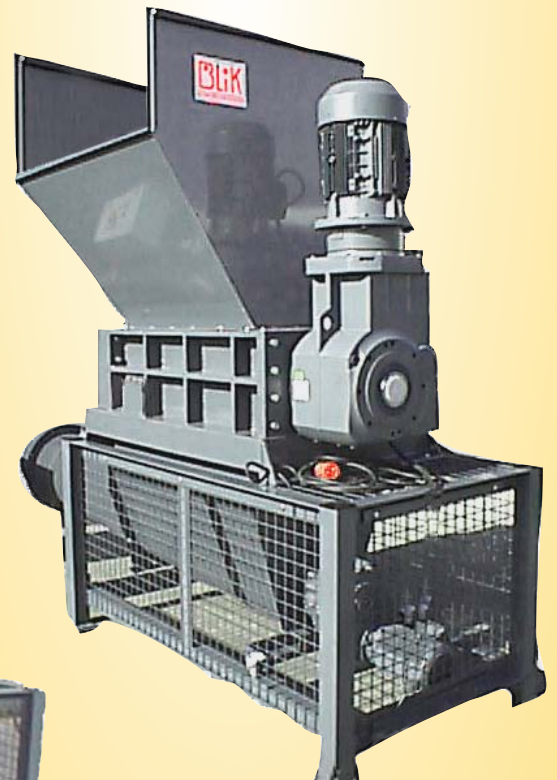

The cutting unit of the Blik B 600 Perf 950 crusher does not just make multiple perforations in the plastic containers. It also crushes glass containers and metal and other items at an incredible speed.

The mixed blades (perfo plastic and glass crushing) do not show any signs of wear even after a long period of intensive use.

Extractor conveyor and separation sieve for the solid and liquid phases (optional).
