

# BLiK CRUSHERS

## French design and manufacture

*The french manufacturer, Blik, designs, studies, develops and manufactures "universal" crushers with rotating blades for a wide range of industrial purposes.*

*These uniquely designed crushers come in a variety of configurations ranging from 2 to 30 kW and benefit from special design patents which make them easy to run and to service.*

*They can be used for destroying and reducing huge volumes of a wide range of industrial waste materials and are also perfect for getting rid of unwanted documents and hospital waste or for reprocessing, etc... They are the solution to a long standing and complex problem.*

*They are readily available in stainless steel and fireproof versions. Blik design studios can also develop versions in alternative materials to meet specific requirements.*

*The company has also been in the forefront of supplying a complete range of metal bailing, barrel presses and document shredders, over the past 15 years.*

## Volume reduction

Files

Barrels

## Destruction, confidentiality

Customs

Banking

## Safety, hygiene

Pharmaceuticals

Nuclear

## Reprocessing

Catering

Metals

**Files and office materials: destruction, volume reduction:**

Shredding printed material and files (entire binders) in a BLiK crusher.

**Industry, trade: volume reduction and packaging**

Crushing metal containers in a BLiK B600

Crushing plastic containers in a BLiK B600.

Shredding (whole, un-flattened) cardboard boxes in a BLiK crusher and creating new cardboard packaging sheets. Major volume reduction; reprocessing waste materials; Servicing largely aided by endless screw.

**Hospitals, clinics, chemists: single use products, pharmaceutical packaging...**

**Banks, telephone, electronics: destruction of cheques, credit cards, etc.**

Shredding and destroying credit cards in a BLiK crusher (credit cards, telephone cards, etc.).

Shredding and destroying cheques.

**Customs, justice, police: seized goods to be destroyed.**

Administration, police, justice: destruction of seized goods for legal reasons: solution: a "universal" BLiK shredder (here, packets of cigarettes).

Administration, police, justice: destruction of seized goods for legal reasons: solution: a "universal" BLiK shredder (here, packets of cigarettes).

**Nuclear: neutralisation of single use equipment**

Nuclear industry: crushing equipment from radioactive areas on a specially equipped BLiK shredder.

Nuclear industry: crushing equipment from radioactive areas on a specially equipped BLiK shredder.

**Mechanical industry, automobile: reprocessing of waste products**

Shredding galvanized tubes in a BLiK shredder (huge reduction in volume, reprocessing).

Crushing "carrots" from a zinc alloy foundry (huge reduction in volume, reprocessing).

**Recycling: auto breakers, waste reprocessing**

Crushing car bumpers in a BLiK crusher (huge reduction in volume, reprocessing).

Crushing car bumpers in a BLiK crusher (huge reduction in volume, reprocessing).

**Agro alimentary: destruction of non compliant products, volume reduction.**

Agro alimentary: destroying (whole batches of) products in a BLiK crusher (here, coconuts).

Agro alimentary: crushing waste products in a BLiK crusher (here, scallops).

**Hotels, restaurants: volume reduction, pre treatment of waste**

Agro alimentary: shredding of plastic moulds (here, yoghurt containers) in a BLiK shredder: total amount divided by 10

Restaurants, hotels, communities: crushing drink cans in a BLiK crusher: volume reduction and reprocessing.

Crushing glass bottles in a BLiK B400 crusher, equipped with glass breaking blades.

Restaurants, hotels, communities: plastic bottles: volume, liquid waste, etc. Solution: shred in a BLiK.

**Perfect hygiene, zero corrosion? Solution: STAINLESS STEEL BLiK (optional)**

Stainless steel: cutting block and slammer.

Stainless steel: cutting block and blades.

Stainless steel: cutting block without blades.

Stainless steel: blades.
